Description

Key Ingredients:

The main active constituents of Pure Manuka Oil are the Trichetones, Flavesone, Leptospermone, Isoleptospermone, and the highest levels of these are only found in plants (*Leptospermum Scoparium*) growing naturally on New Zealand's remote "East Cape".

Key Features:

Laboratory tests have indicated that it is very effective as a treatment against some antibiotic-resistant organisms and, Manuka Oil having a very high antibacterial and antifungal activity, has been found to be particularly effective against bacteria such as *Staphylococcus* and *Streptococcus*, and Pathogenic Fungi.

- For external use only
- Helpful for all skin problems where the skin is sensitive

More

In addition to external medicinal use, Manuka Oil is used in aromatherapy, as a household aid and in perfumery.

- Manuka Oil does not cause a skin reaction in most individuals (refer to Cautions in Usage)
- Keep out of reach of children
- Store in a cool dark place
- An Information Sheet is available from Manuka Honey Ltd

Usage

External: - 2-4 drops of Pure Manuka Oil in the bath or placed directly on affected area.

- Fungal infections, Athletes Foot & Nail Bed Infections: - Apply a few drops of Pure Manuka Oil with a cotton ball, twice daily. Continue to apply for 5 days after visible signs of infection have gone.
- Itching Scalp and Dandruff: - Add 10 drops of Pure Manuka Oil to a normal amount of shampoo and massage into wet hair and scalp. Leave for five minutes before rinsing.
- Cuts, Scratches and Abrasions: - Apply Pure Manuka Oil.
- Oily Skin and Pimples: - Wash affected daily then apply Pure Manuka Oil as a spot treatment for problem areas.
- Foot and Body Odour: - For foot odour, rub Pure Manuka Oil into feet 3 times per week. Also protects against fungal infection.
- Insect Bites and Stings: - Apply Pure Manuka Oil to help relieve itching and inflammation and prevent infection.
- Insect Bites and Stings: - Apply Pure Manuka Oil to help relieve itching and inflammation and prevent infection.
- Aching Muscles and Joints: - Massage Pure Manuka Oil into tired and aching muscles and joints.

Caution:

- Acute toxicity can occur if it is administered in amounts above the stated daily dose.
- In some individuals, Manuka Oil can produce a mild irritancy to the skin.
- In tests conducted in England at Huntington Life Sciences and at the Wellington Clinical School, New Zealand, on application of undiluted oil to the skin of 30 subjects, there were no reports of skin irritancy.
- If irritation or other negative effects occur, discontinue use and consult a medical practitioner before resuming.
